About Donna

Donna Connor is a proud mom and wife, serial entrepreneur, CEO of a multi-7-figure consulting firm, NuQuo Group, and the founder of Life on Purpose Academy, where she helps people heal their relationship with money and live a life of purpose. After growing up where there was never enough, she developed an unhealthy relationship with money at a young age that led to two bankruptcies before the age of 40. Since then, she has been able to recover from bankruptcy in record time, set herself and her husband up for retirement, become a financial advisor, travel 3-4 times per year, start 3 businesses, and create a money legacy for her family.

She has an empowering story of how she went from being bankrupt twice before the age of 40 to CEO of a multi-7-figure business and helping people heal their relationship with money.
